

**COMPOSITIONS AND METHOD FOR TREATMENT OF STEROID/NUCLEAR
RECEPTOR-MEDIATED DISEASES**

ABSTRACT OF THE DISCLOSURE

Compositions and method for treatment of steroid/nuclear receptor-mediated diseases. The present invention relates to non-aqueous extracts of *Astragalus Membranaceus* (HQ) and to compositions thereof. Also provided is a method for the treatment of PPAR-mediated physiological conditions comprising administering to a subject an effective amount of at least one of the above mentioned extracts and also a method for augmenting or synergising the activity of ligands of steroid/nuclear receptors comprising administering to a subject an effective amount of at least one of: an extract of *Astragalus Membranaceus* (HQ) or a flavonoid compound; in the presence of at least one ligand of steroid/nuclear receptors.
